Education:

2012-2017. - University of Belgrade, Faculty of Orthodox Theology

2017-2019 - Faculty of O.T. Master Academic Studies

2019-2020 - It Oip, Web Developer

Birthday:
24.05.1993.

Location:
Lazarevac (Belgrade)

Previous work

Teacher at Primary School catechiser

I'm currently working here at primary school as catechiser teacher. I'm teaching kids about orthodox religion, Serbian history, culture and customs.

Photoshop Masker Microwork.io

I was providing image tagging and annotation services for deep learning, machine learning and computer vision companies.

Professor at High School

As in a primary school, my work here was to teach adolescents. I was working in gymnasium in Lazarevac.

Computer skills

Knowledge of Photoshop, Adobe Lightroom, Office 365, installing Windows, resolving software issues...PC building, installing hardware parts.

Other skills:

The ability to quickly find in the internet the materials for the work. Quick typing, checking for typos or spelling errors. Recovering lost data from hard drive

Personal

Since I was young and had my first PC I was into gaming and messing around on it. It became my daily activity to do something on PC. Then I attended to course where basic stuff about PC was learned. For the first time in my life I got a certificate. Later, when I grew up I've got different interestings. Now I'm working with kids in primary school in Lazarevac. Also, I'm a musician as well and that is my main hobby. I play keyboards, guitar and flute. In a free time I like to go to the gym and work on my health, play football or basketball with friends, etc. Desire for Web Development came from my PC skills, and I wish to have a career in web.
